

# **SAFETY DATA SHEET**

# **SWEET-LU CLEAR**

Infosafe No.: LQ4PE ISSUED Date : 18/08/2020 ISSUED by: HOSPECO PTY LTD

# 1. IDENTIFICATION

#### **GHS Product Identifier**

**SWEET-LU CLEAR** 

# **Company Name**

HOSPECO PTY LTD

#### **Address**

17 Elizabeth Street Wetherill Park NSW 2164 AUSTRALIA

## Telephone/Fax Number

Tel: +61 2 9756 0055 Fax: +61 2 9756 0095

#### **Emergency phone number**

1800 638 556

## Recommended use of the chemical and restrictions on use

As a toilet bowl and urinal reodorant and cleanser

# 2. HAZARD IDENTIFICATION

# GHS classification of the substance/mixture

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Eye Damage/Irritation: Category 1 Skin Corrosion/Irritation: Category 2

# Signal Word (s)

DANGER

# Hazard Statement (s)

H315 Causes skin irritation.

H318 Causes serious eye damage.

# Pictogram (s)

Corrosion

# **Precautionary statement - Prevention**

P264 Wash contaminated skin thoroughly after handling.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

# Precautionary statement - Response

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P362 Take off contaminated clothing and wash before reuse.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### **Ingredients**

Name	CAS	Proportion
Sulfamic acid	5329-14-6	0-<10 %
Quaternary ammonium compounds, alkylbenzyldimethyl, chlorides	8001-54-5	0-<5 %
Ingredients determined not to be hazardous		Balance

## 4. FIRST-AID MEASURES

#### Inhalation

If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

#### Ingestion

Do not induce vomiting. Wash out mouth thoroughly with water. Seek immediate medical attention.

#### Skin

Remove all contaminated clothing immediately. Wash affected area thoroughly with soap and water. Wash contaminated clothing before reuse or discard. Seek medical attention.

#### Eye contact

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.

# **First Aid Facilities**

Eyewash, safety shower and normal washroom facilities.

#### **Advice to Doctor**

Treat symptomatically.

#### **Other Information**

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

# 5. FIRE-FIGHTING MEASURES

#### **Suitable Extinguishing Media**

Use carbon dioxide, dry chemical, foam, water mist or water spray.

# **Hazards from Combustion Products**

Under fire conditions this product may emit toxic and/or irritating fumes and gases including hydrocarbons, carbon monoxide, carbon dioxide, oxides of nitrogen.

#### **Specific Hazards Arising From The Chemical**

Combustible solid; will readily burn under fire conditions.

# **Decomposition Temperature**

Not available

#### **Precautions in connection with Fire**

Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers. Fight fire from safe location. This product should be prevented from entering drains and watercourses.

# **6. ACCIDENTAL RELEASE MEASURES**

#### **Emergency Procedures**

Remove all sources of ignition. Increase ventilation. Evacuate all unprotected personnel. Wear respiratory protection and full protective clothing to minimise exposure. Collect the material; then transfer material in to suitable vapour tight labelled containers for subsequent recycling or disposal. Dispose of waste according to applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

#### 7. HANDLING AND STORAGE

## **Precautions for Safe Handling**

Avoid inhalation of dust/mist, and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of dust/mist in the work atmosphere. Establish good housekeeping practices. Remove dust accumulations on a regular basis by vacuuming or gentle sweeping to avoid creating dust clouds. Maintain high standards of personal hygiene i.e. washing hands prior to eating, drinking, smoking or using toilet facilities.

#### Conditions for safe storage, including any incompatibilities

Store in a well ventilated area away from heat and sources of ignition, out of direct sunlight and moisture. Take precautions against static electricity discharges. Use proper grounding procedures. Store away from incompatible materials such as materials that support combustion (oxidising materials). Store in suitable, labelled containers. Inspect periodically for deficiencies such as damage or leaks. Have appropriate fire extinguishers available in and near the storage area. Ensure that storage conditions comply with applicable local and national regulations.

For information on the handling of Combustible dusts and grounding procedure reference should be made to Australian Standard AS/NZS 4745 - 'Code of Practice for Handling Combustible Dusts'

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Occupational exposure limit values

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

# **Biological Limit Values**

No biological limits allocated.

# **Appropriate Engineering Controls**

This substance is hazardous and should be used with a local exhaust ventilation system, drawing solid/dust away from workers' breathing zone. A flameproof exhaust ventilation system is required. If the engineering controls are not sufficient to maintain concentrations of particulates below the exposure standards, suitable respiratory protection must be worn.

# **Respiratory Protection**

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements.

Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

#### **Eye Protection**

Safety glasses with full face shield should be used. Eye protection devices should conform to relevant regulations.

Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 (series) - Eye Protectors for Industrial Applications.

#### **Hand Protection**

Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

#### **Body Protection**

Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Properties	Description	Properties	Description
Form	Solid	Appearance	Yellowish amber waxy soild
Colour	Yellowish amber	Odour	Sweet
Decomposition Temperature	Not available	Melting Point	>55°C
<b>Boiling Point</b>	>100°C	Solubility in Water	Completely soluble
Specific Gravity	1.05 to 1.075 (20°C)	рН	Not available
Vapour Pressure	<1.0 mmHg (20°C)	Vapour Density (Air=1)	>1
<b>Evaporation Rate</b>	Not available	Odour Threshold	Not available
Viscosity	Not applicable	Volatile Component	Low volatile organic carbon %
Partition Coefficient: n-octanol/water	Not available	Density	Not available
Flash Point	Not applicable	Flammability	Not flammable
Auto-Ignition Temperature	Not available	Explosion Limit - Upper	Not available
Explosion Limit - Lower	Not available	Explosion Properties	Not available
Oxidising Properties	Not available		

#### 10. STABILITY AND REACTIVITY

## Reactivity

Reacts with incompatible materials.

#### **Chemical Stability**

Stable under normal conditions of storage and handling. Stable to 60°C.

# **Conditions to Avoid**

Heat, open flames and other sources of ignition.

# **Incompatible materials**

Strong oxidising agents.

# **Hazardous Decomposition Products**

Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including hydrocarbons, carbon monoxide, carbon dioxide and oxides of nitrogen.

# Possibility of hazardous reactions

Not available

# **Hazardous Polymerization**

Does not polymerise

# 11. TOXICOLOGICAL INFORMATION

# **Toxicology Information**

No toxicology data available for this product.

#### Ingestion

Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

## Inhalation

Inhalation of dusts or vapours/mists from solution may irritate the respiratory system.

#### Skin

Causes skin irritation. Skin contact will cause redness, itching and swelling. Repeated exposure may cause skin dryness and cracking and may lead to dermatitis.

#### Eye

Causes eye damage. Eye contact will cause stinging, blurring, tearing, severe pain and possible burns, necrosis, permanent damage and blindness.

# **Respiratory sensitisation**

Not expected to be a respiratory sensitiser.

#### **Skin Sensitisation**

Not expected to be a skin sensitiser.

# Germ cell mutagenicity

Not considered to be a mutagenic hazard.

## Carcinogenicity

Not considered to be a carcinogenic hazard.

#### **Reproductive Toxicity**

Not considered to be toxic to reproduction.

## **STOT-single exposure**

Not expected to cause toxicity to a specific target organ.

## STOT-repeated exposure

Not expected to cause toxicity to a specific target organ.

#### **Aspiration Hazard**

Not considered to be an aspiration hazard.

#### 12. ECOLOGICAL INFORMATION

## **Ecotoxicity**

Low ecotoxicity expected as surfactants are highly biodegradable and so are not present for long periods in the natural environment.

# Persistence and degradability

Highly biodegradable

# Mobility

Not available

# **Bioaccumulative Potential**

Not available

#### **Other Adverse Effects**

No added phosphates or nitrogen.

## **Environmental Protection**

Prevent this material entering waterways, drains and sewers.

# 13. DISPOSAL CONSIDERATIONS

#### **Disposal considerations**

The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

# 14. TRANSPORT INFORMATION

## **Transport Information**

Road and Rail Transport (ADG Code):

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code) (7th edition).

Marine Transport (IMO/IMDG):

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

#### Air Transport (ICAO/IATA):

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

#### **U.N. Number**

None Allocated

## **UN proper shipping name**

None Allocated

# Transport hazard class(es)

None Allocated

# **IMDG Marine pollutant**

No

# **Transport in Bulk**

Not available

# **Special Precautions for User**

Not available

#### 15. REGULATORY INFORMATION

#### **Regulatory information**

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

#### **Poisons Schedule**

S5

# **16. OTHER INFORMATION**

#### Date of preparation or last revision of SDS

SDS Reviewed: August 2020 Supersedes: August 2015
